President's Report

Read by Bob Miller - President of the B.C. Angus Association

BC Angus Association Directors and fellow members wish to extend a Healthy and Happy 2023, to you and your families.

Buy BC ... is the motto for the 2023 bull sale season. BC Angus Association members appreciate the continued support provided by commercial cattle farmers and ranchers when purchasing Angus bulls in BC. Angus bulls bred and born in BC are a quality product, raised and adapted to the terrain and environment of the BC landscape and climate. They are ready to work for you.

Should I cull my older bulls – is it time to seize financial and genetic opportunity? This is always a good question. Bulls are like professional athletes. Once properly developed they reach full servicing capacity and have a prime of several breeding seasons (usually between the ages of 2 – 5 years). After 6 years of age, they are on borrowed time. Bottomline; the life of a herd bull is full of challenges. Mounting and breeding cows in all sorts of terrain, working on mud, sand, rocks, snow, fighting with other bulls and the natural servicing of females can all lead to injuries.

- Continued on page 2 -

Edited and Published by the B.C. Angus Association

President's Report

- Continued from page 1 -

Over time even the soundest and most athletic bulls are going to get injured, become more cantankerous and unsafe to have around or potentially fail a breeding soundness examination.

What's a good bull worth? I provided a more detailed breakdown in the May / June 2022 issue using the rule of thumb that "a good bull is worth the value of four – five 600 lb steers calves". You do the math using this formula and decide what works best for your operation as we head into the bull buying season for 2023.

Will that good bull improve my herd – for the immediate and long run.

What is important to me when buying a bull? Is it; 1) integrity and reputation of the purebred seller 2) the bull's structure; visual appraisal, feet, legs, shoulders, spine, head shape, rib capacity, length, muscling, 3) how he tracks or travels, 4) genetics, 5) feed history, 6) performance data/EPDs. These are all important traits that can influence not only which bull you may buy, but potentially the viability of your cowherd.

Angus Influence Feeder Sales in BC were successful again in 2022 with strong demand on steer calves drawing good value. Heifer calves seemed to be off for the most part this past fall. Demand and prices paid for bred heifers and cows seemed to depend on quality and location. For the most part I thought the bred market was generally soft this fall.

In early November, I took a couple of days off from work to attend the Poplar Meadows Angus Reduction Sale at Houston, BC for Tanya, Monty, Taylor and Alaina Belsham and WOW, was I glad I did. What an impressive herd of purebred black Angus cattle, backed by good quality people. This was truly an event for the history books in the lifetime of BC Angus.

In mid December while in Alberta, I visited the Canadian Angus Association office in north Calgary. I was greeted and made feel welcome by a most congenial staff and also privileged to sit in on the staff review of the new Canadian Angus Calving App, which is now available as a free download from the App Store for your Apple device. Search "Canadian Angus Calving Book" in the Apple app store.

Wishing you the Best of Success for your 2023 bull buying, bull selling and calving seasons.

If you have any questions regarding Angus cattle or the Angus Association, please reach out to any one of your BCCA Directors.

Until the next time.

Bob Miller, President, BCAA

B.C. Angus Association Mission Statement

“To promote the Angus breed consisting of
Black and Red Angus cattle.
To provide support, integrity and leadership
for BC Angus Association members and BC
Junior Association members.
To enhance and promote Angus influence
growth for all sectors of beef cattle and beef
production in British Columbia.”

Meet Your BCAA Directors

Hi, my name is Adrienne Dickson of C-Jay Ranch, Topley, BC. My family first started our ranch in 1996 with two registered Red Angus cows, which my parents bought for my sister and I.

I purchased my first Black Angus cattle in 1999 and my first registered Hereford in 2002. We currently have 25 cows which are mainly purebred Angus and Hereford. This year will be our 20th year of consigning bulls to Williams Lake Bull Sale. We like to show our cattle at local fairs and exhibitions and as a Junior member I participated in Angus Show Down and Junior Bonanza with the Herefords.

As generations turn over, my sister Mandie and I now have children of our own starting into the Junior Angus programs with their own animals. Mandie's two boys, Owen and Seth are both in 4H and once my two girls Maggie and Abigail, are old enough they will be joining as well.

Our farm is located at Topley, where along with my husband Doug and our children we raise sheep, laying hens and cattle.

I look forward to serving as a BCAA Director. I decided to get involved because I have a passion for the cattle and the purebred cattle business and I felt it would be good to have a Director on the Provincial board from our area.

Hope to see you at an Angus function somewhere down the road.

Adrienne Dickson

Hi, my name is Taylor Maciborsky- I am 24 years old and a new director for BC Angus. I am the owner of 'Tays Angus'. I started my purebred Black Angus herd in 2020 but Angus has also been in my blood! I currently reside on my grandparents ranch the B- Ranch in Horsefly, BC where we run about 18 Black Angus commercial pairs and my 10 purebreds. My Grandparents have had an Angus influenced herd and ran purebred Angus bulls for as long as I can remember and we wouldn't have it any other way. I was involved in 4-H and have always shown Angus projects! I'm excited to be on the board of BCAA to share information about the Angus Breed and teach the younger generation and get them involved in the breed!

Taylor Maciborsky

Angus Feeder Calf Sales Report

October 12 - BC Livestock Producers Co-op – Williams Lake, BC

3700 head of powerful Angus and Angus cross calves brought strong demand from the buyers. Soda Creek Indian Band set the pace with a load of 455 lb Angus influence steer calves bringing \$310.50 / lb. Chimney Creek Ranch had fancy 516 lb Red & Black baldie s/c's hit \$256.50 per lb. BCAA sponsored coffee.

Association reps in attendance were CAA / BCAA Ambassador John Appleby and BCAA Director Taylor Maciborsky

October 25 – BC Livestock Producers Co-op – Kamloops, BC

1400 head hit the ring at this Angus influence sale day. BCAA sponsored coffee, provided handouts and the BCAA banner was set up in the lobby.

Hat Creek Land & Cattle Co saw their 493 lb h/c's bring \$230 / lb. Jordan Manning showcased a load of 535 lb Blk Angus s/c's selling for \$264.50 / lb

Association reps attending were John Appleby and Bob Miller

October 31 – BC Livestock Producers Co-op – Okanagan Falls, BC

Angus influence quality was incredible with 45 consignors contributing 1400 head for this largest volume sale of the year.

Wilf & Rebecca Lindquist had 600 lb s/c's hit \$2.45 / lb. T6 Ranch had 635 lb s/c's bring \$243 / lb while their 618 lb black replacement type heifer calves brought \$261.50 / lb

BCAA sponsored coffee. John Appleby was the association rep in attendance.

The BC Angus Association wishes to thank the BC Livestock Producers Cooperative for their support, cooperation and promotion of the annual Angus Influence feeder calf sales.

Memo to BC Angus Association Members

The BCAA Board of Directors as a result of discussion during the 2022 AGM have voted to move forward with the printing of a 2023 Association Breeders Directory and Handbook.

BCAA Directors are encouraging all members to participate in having their farm name and / or farm or business advertisement appear in the directory. Upon completion the Breeders Directory will be circulated to BC purebred and commercial cattle operations, BC Auction Markets, BC Veterinary Clinics, Feed Stores, etc throughout the province.

It has been many years since BCAA last printed a Breeders Directory, let's all participate in supporting this project in making it something to be proud of.

For further information regarding advertising rates, deadlines etc – Please contact BCAA Newsletter Coordinator Rocio Alejandre at bcangusassociation@gmail.com or any one of the association Directors.

BC Junior Angus Association Report

Greetings all, hope everyone is having a wonderful calving season with this amazing weather recently. The BC Junior Angus Association has been very busy in the new year, and we are excited to give you an update. As the months come quickly, we have a few big plans coming up. In the month of May we are planning to have both a Northern and Southern field day at local beef operations, we invite all members out for a day of learning and fun. We also hope to have an online silent auction coming in the summer months, as a fundraiser for our association and we will be reaching out for donations. For regular updates and upcoming events follow our social media pages on both Instagram (@bc_junior_angus) and Facebook (BC Junior Angus Association), also don't hesitate to reach out to any of our great directors!

Best Regards,

Wade MacDonald

President, BC Junior Angus Association

Canadian Angus Green Tags

The Tag with Benefits

Angus-branded beef programs across Canada need and want to verify that what they are selling as Angus beef is indeed Angus. One way to prove that is by procuring cattle that are tagged with Canadian Angus Green Tags.

Tagging your animals with Canadian Angus tags has its benefits:

- Sell direct or through one of the 169 Canadian Angus Feeder Sales across Canada.
- Canadian Angus green RFID tags visually and electronically identify Angus and Angus cross cattle. It's our guarantee that the animal bearing the tag has a minimum of 50% Angus genetics.
- CCIA compliant indicator—no other RFID indicator is required for national identification.
- There are a number of branded beef programs in Canada that are unable to find enough verified Angus cattle to satisfy their program demands. The only way to verify? With our Canadian Angus tag!
- Many Angus branded programs require Angus verification for qualification into their programs. Maximize your marketing opportunities by using Canadian Angus tags.

“As more and more global markets demand the Angus brand, sourcing cattle to meet our brand specifications becomes of increasing importance and value. The assurance that the Canadian Angus Green Tag provides knowing purchased cattle will qualify for our Angus brands takes the guesswork out of the equation and adds value into the cattle we acquire.”

Nicolas Ednie
Bouvry Exports Canada

Ordering your Canadian Angus Green Tags (RFID indicators) has never been so easy:

Please order directly from CCIA online at www.canadaid.ca or call 1-877-909-2333

CCIA carries both the Datamars brand Temple Tag ComfortEar Canadian Angus RFID indicator as well as the Allflex brand Canadian Angus RFID indicator.

Weren't able to tag your calves green? The Canadian Angus Association can verify calves for your branded program through the Genuine Angus Verified program. Contact CAA for more details.

Order your Canadian Angus management tags directly through the Canadian Angus Association. Order online www.cdnangus.ca/adding-value/ordering-caa-management-tags or call 1-888-571-3580.
