Your female exposure worksheets are either enclosed here, or have been placed online for you. These worksheets are members' opportunity to ensure all females that are not active in your purebred herd are disposed of. This is extremely important for members on the Angus Cow Enrollment (ACE) program as ACE enrollment fees are assessed based on active cows on inventory. If you are on ACE your female exposure and disposal sheets must be returned to your association office by December 1.

Female exposure and disposal data is also used to calculate EPDs for traits like Stayability and Heifer Pregnancy (HPG). These traits are of economic importance so please take the time to submit this data. In addition, submitting your exposure information makes things easier at registration time, as the potential sires of your calves are already recorded for you.

### How to Complete the Female Exposure and Disposal Worksheet

#### 1. Start Date

- Please indicate the date that the heifer was first exposed to a bull or semen (AI).
- If the heifer was AI'd and then exposed in pasture, use the AI date as the start date.

#### 2. End Date

- The end date is the last date that the heifer was in contact with a bull or semen. If the heifer was AI'd and then exposed in pasture, use the last date that the bull was with her as the end date.

#### 3. AI/Nat

- Please indicate if the exposure was by AI or to a walking bull.

#### 4. Sire ID or Sire Group

- Please indicate the bull's CAA registration number or tattoo, or create a group of sires at the bottom of the page and use the group number.

#### 5. Exp Group

- Please indicate if all females were managed the same and had the same opportunity to become pregnant.

#### 6. Disposal Code

- Please deactivate or remove females that are no longer actively producing for your purebred herd.
  - 1 – Died (disease)
  - 2 – Died (age)
  - 3 – Died (other)
  - 4 – Culled (physical defect)
  - 5 – Culled (fertility)
  - 6 – Culled (performance)
  - 7 – Culled (temperament)
  - 8 – Culled (age)
  - 9 – Sold for breeding (no paper transferred)

#### 7. Disposal Date

The date of disposal should be indicated in dd/mm/yyyy format.

\*Female exposure and disposal worksheets are also available online! COMPLETED WORKSHEETS ARE DUE DECEMBER 1<sup>ST</sup>!
